Good Meetings | Checklist

Pu	urpose
	Identify clear and important meeting objectives that contribute to the meeting.
	Create a Community Agreement. What are meeting ground rules?
	Establish a preliminary curriculum that assists with meeting structure—consider using participant concerns to build curriculum.
	Establish a connection between these meeting and other meetings—both past meetings and future planned meetings. Where were we and where are we going?
Pr	ocess
	Norms matter: Pay special attention to initial expectations, concerns, and processes as these set the tone and pace of subsequent meetings. Slow down when appropriate.
	Incorporate feedback from previous meetings.
	Choose challenging but "just right" activities that advance the meeting objectives and engage all participants.
	Assign roles , including facilitator, timekeeper, and note taker.
	Listen with full attention when everyone speaks—making eye contact with the speaker (inperson setting) or looking directly at the computer screen (virtual setting). Keep your camera on if virtual, for all speakers.
	Build in time to identify and commit to next steps .
	Take time to assess what worked and didn't work – and adjust in time for the next meeting.
Pr	eparation
	Gather or develop materials (e.g., drafts, charts, etc.) that will help to focus and advance the meeting objectives.
	Determine pre-work , if any, that participants will be asked to complete before the meeting.
Pc	ıcing
	Add time allocations for each activity in the agenda—and keep to time.
	Devote the entire agenda to discussions you know are hot button issues or likely to elicit more interest.
	Ensure there is time to address the primary objective early in the meeting.
	Assess how realistic it will be to get through the agenda in allotted time.
